YAC Work Pack Manager

Flexible and intuitive processing of Documents

Znk@
Consulting

- Business Requirement
 - For various business domains and activities, there is a need to quickly and easily retrieve in SAP all electronic documents of different types, from various sources, with information about the documents flow and associated business objects, and to...
 - Easily sequence them
 - Mass print them in one click
 - Zip and download them at will
 - Convert them into one big pdf file for easy distribution
 - Retrieve the documents even when a URL is used instead of an attachment
 - Automatically include SAP Forms and Shop papers as documents
 - Group them in Work Packs that can be saved and re-used later

- YAC Work Pack Manager supports all these requirements, with
 - A "Cross Application" view allowing to work with one or multiple business objects,
 - A "Business domains" view with complete documents flow in the domains of maintenance, purchasing, sales, finance, etc.

YAC Work Pack Manager

Example on Maintenance vs Cross Applications
